How can Desktop recording be used in Teaching and Learning?

- As a component of a flipped / inverted classroom
  - Didactic lectures are replace with content delivered using online videos.
  - Class time used for student centred learning activities, projects, assignments, group work.
- Supplementary content
  - Review of assumed knowledge.
  - Resources on difficult concepts – allows student to review content repeatedly.
- Alternative to lecture theatre recordings
  (for venues that are not setup with the required equipment)
  - Record a repeat of the lecture at your desktop.
  - Record the actual lecture (use radio mic).

Desktop recording options at UQ

**PCAP**

- Centrally supported
- Very easy to use.
- Very basic editing tools.
- Load videos directly to Blackboard - shows in your course the same as a Lecture Theatre Recording. Streaming, download audio, download video
- To change the video you need to redo it.
- A good starting point – you may decide to move onto different software later.

**Kaltura**

- Centrally supported
- Very easy to use.
- Webcam only recording + Screen recordings
- Can only create clips – trim the beginning and end of videos.
- Load videos directly to Blackboard.
- Videos can be streamed or downloaded.
- To change the video you need to redo it.
- Can be used by students, suitable for student video assignment submission.
- Very basic– useful if you need to create a recording quickly and for use by students.
Screencast-O-Matic

- Not centrally supported – training and guides only.
- Load videos to Blackboard (>10mg) using Echo360 ingest – shows in your course the same as a Lecture Theatre Recording. (Centrally supported)
- Good range of editing tools.
- Can add in sections at a later date.
- $12 a year.
- Good option if you require more advanced editing tools.

Other: Adobe Captivate, Camastasia, Adobe Presenter, Articulate, Storyline

- Not centrally supported.
- Cost $200+
- Load videos to Blackboard (>10mg) using Echo360 ingest – shows in your course the same as a Lecture Theatre Recording. (Centrally supported)
- Full range of editing tools – can edit videos slide by slide.
- Extra functionality – quizzes, branching (scenario based learning presentations), multimedia tools.
- Results of quizzes will not transfer to Blackboard (this feature will be available in Bb9.1v11 – 2014)
- Required more advanced IT skills – time taken to learn the software.
- ITS are reviewing these software options:
  - planning to recommend one option
  - will not be centrally supported – training and guides only.
  - training will be available S2
Getting started

To use PCAP you will need to:

1. Request access to the Echo360 server.
2. Download the required software.
3. Enter the server address.

Request access

*Note:* If you already have lecture recordings published to the required course this step will not be necessary, as you will already be set up in Echo360.

Otherwise you will need to log helpdesk request for access to Echo360 PCAP.

**Helpdesk:** Phone 07 3365 6000, Email itsupportdesk@its.uq.edu.au

Include the following information with your request:

- For all staff who will be creating desktop recordings for your course:
  - Title, First Name, Last Name, Telephone no, Email address
  - UQ Username
- Course Details:
  - Course Name
  - Full Course Code including Blackboard code (e.g. ILECT1000N_5760STx)
- Semester:
  - Summer Semester 2012, Semester 1 2013, Semester 2 2013.
- Campus:
  - St Lucia, Ipswich, Herston, Gatton, Other (please specify)

*Note:* Give details on all courses you wish to upload desktop recordings to.

*Note:* You will need to submit a request every semester for your new courses.

Software download

The software can be downloaded for the ITS Software Download Site.

- Open your browser and visit the below address.

[https://licensing.its.uq.edu.au/](https://licensing.its.uq.edu.au/)

- Enter your User Name and Password.
• Select **Echo 360 Personal Capture**

![ ITS Software Download Site Vendor Selection ]

- Click on the **Submit** (Submit) button.
- Click on the **Continue** (Continue) button.
- Scroll to the end of the page and click on the **Accept** (Accept) button.
- Select the required version of Echo360 Personal Capture.

![ ITS Software Download Site ]
Install software

- Open the file from your download folder.
- Click on the (Next) button repeatedly.
- Click on the (Finish) button.
Server address

If you did not install the software yourself or if you are using a Lectern machine you will need to enter the server address. You will only have to do this once on your own machine and probably the first time every semester that you use a Lectern machine (the image is updated between semesters).

- Open **Echo360 Personal Capture**.
- Click on the (Go to My Recordings) button.
- Click on **Tools** and select **Options** from the drop down menu.
• Click on the **Server** tab.
• Enter the **Hostname / IP Address**:
  
  `echo360.recordings.uq.edu.au:8443`

• Click on the **OK** button.
Create a recording PCAP

PCAP allows you to record:

- Audio
- Audio and Screen capture
- Audio, Screen capture and a webcam

Open Echo360 Personal Capture (PCAP)

- Plug in the microphone you will be using (if you are not using a microphone built into your computer) before you open Echo360 personal capture.
- Open Echo360 personal capture. Note PCAP is slow to open, do not click on the icon again.

Note: Refer to the p6 for instructions on how to install the required software on your computer.
Recording screen

- On the **Welcome screen**, click on the (Start Capture) button **OR**

- On the **My Recordings screen** click on the (Start Capture) button.
Recording settings

- Click on the (Configure) button.

- Select the required microphone from the **Audio Device** drop down list. Note if you are using audio from a webcam, you will need to select the webcam.

- Select the required screen (if you have more than one screen) from the **Screen** drop down list.

- Select from the **Video Quality** drop down list:
  - **Actual Size** – for recording voice over PowerPoint or a software demonstration.
  - **Quarter Size** – for a webcam only recording.

- Select the required webcam from the **Video Device** drop down list.

- Click on the **OK** (OK) button.
- Check the checkboxes of the media you want to capture:
  - Microphone
  - Screen
  - Webcam

Audio only recording  Audio and Screen capture
Note: A preview of the webcam is displayed. This preview will not be displayed while you are actually recording. The final recording will display the screen and webcam video side by side.

Start recording

- Enter the title of the recording in the Title textbox.
- Click on the (Start Capture) button.
The application will be minimised and a recording countdown displayed.
Open any resources need for your presentation i.e. PowerPoint slides, software or web browser.

When the recording starts a message will be displayed in the System tray.

All your actions on the screen will now be recorded.
Pause the recording

- Press the Alt and F3 key on your keyboard.

Resume the recording

- Click on the (Resume Capture) button. OR
- Press the Alt and F3 key on your keyboard.

Stop recording

- Press the Alt and F2 key on your keyboard.
- The View/Edit screen will be displayed.
- Click on the (play) button to view the recording.
View/Edit a recording PCAP

View/Edit Screen

- When you stop recording the View/Edit screen will be displayed OR
- On the Welcome screen, click on the (Go to My Recordings) button

On the My Recordings screen select the required recording.

- Click on the View/Edit (View/Edit) button.
View the recording

- Use the **Playback controls** to view the recording.
Trim the recording (beginning and end)

- Move the beginning slider to where you want the recording to start.
- Move the end slider to where you want the recording to finish.

Delete a section of the recording

- Move the playhead to the position where you want to start the cut.
- Click on the (mark-in) button.
- Move the playhead to the position where you want to end the cut.
- Click on the (mark-in) button.
- Click on the (cut) button.
- The cut area will be displayed in grey.

**Clearing cuts**

- Double click on the grey area of the cut.
- Click on the (Clear Cuts) button.
Save edits

- Click on the (Apply Edits) button.

The My Recording screen will be displayed.

*Note:* Cuts cannot be cleared after edits have been applied.
Publish a recording

PCAP allows you to publish your recordings to your Blackboard course using Echo360, UQ’s video server. The recordings are displayed in your Blackboard course in the same format as lecture theatre recordings.

If you do not have a course for the current semester you can still create recordings and publish them at a later date when your course is available.

PCAP recordings can only be published if you are on a UQ campus or if you use VPN (Virtual Private Network) from home. The VPN upload is very slow. Information on VPN can be found on the ITS site:

http://www.its.uq.edu.au/services/vpn

Access to Echo360

All staff are automatically given access to publish to courses which they are instructors in. If you need additional staff to have access to publish to your course you will need to put in a request to helpdesk (refer p8).

Publish screen

- When you stop recording the View/Edit screen will be displayed.
- Click on the Publish Recording (Publish Recording) button.
  OR
- On the Welcome screen, click on the Go to My Recordings (Go to My Recordings) button.

- On the My Recordings screen select the required recording.
- Click on the Publish Recording (Publish Recording) button.
Enter your UQ username and password.
Click on the (Login) button.

Note: PCAP does not accept + or = symbols in passwords. If you have either of these two symbols in your password, you will need to change your password to publish.

Note: If you cannot login you will need to request access to Echo360 refer to p8.
Publishing settings

- Select the required course.
- Click on the (Next) button.

**Note:** If the required course is not listed you will need to put in a request to helpdesk for access refer to p8.

- Select the Create new Echo radio button to upload a new recording OR
- Select Replace existing Echo radio button to replace a recording and select the recording you need to replace.
- Click on the (Next) button.
- Enter the title for the recording in the **Title** textbox.

- Click on the **Publish** (Publish) button.

> The **My Recordings** screen will be displayed.

*Note:* The time the recording takes to publish depends on length of the recording and the number of edits made.
Blackboard links

**Note:** The recording will automatically be placed in the Content Area **Learning Resources** (or **Lecture Recordings**) in a folder name **Lecture Recordings**. If there is no Content Area named **Learning Resources** or **Lecture Recordings** the publishing of the recording to your Blackboard course will fail.

- Click on the **Learning Resources** menu link.
- Click on the **Lecture Recordings** folder link.

- Students have the following options:
  - Playing the recording in the course (streaming).
  - Download an audio only copy of the recording.
  - Download the recording.
Recording Availability

If you do not want your recording to be immediately available to students you can either make the Lecture Recordings folder in Blackboard unavailable to students or make the individual recording unavailable to students.

Making the Lecture Recordings folder unavailable

- Hover over the folder's title.
- Click on the (arrow) button next to the folder name.
- Select Edit from the drop down list.

- From Permit Users to View this Content, select the No radio button.

- Click on the (Submit) button.
Making a recording unavailable

- Hover over the recording’s title.
- Click on the (arrow) button next to the recording title.
- Select Edit from the drop down list.

![Lecture Recordings](image)

- From Do you want to make the content visible?, select the No radio button.

![Options](image)

- Click on the (Submit) button.
- Click on the OK link.

![Echo Content Updated](image)

**Note:** It takes PCAP one minute after it appears to have shut down to shut down completely. Wait at least one minute before opening PCAP again.
Moving a recording

- Click on the **Learning Resources** menu link.
- Click on the **Lecture Recordings** folder link.
- Hover over the video title and click on the (arrow).
- Select **Move** from the drop down list.
- Click on the **Browse...** (Browse) button.
- Select the required folder from the dialog box.
- Click on the **Submit** (Submit) button.

- The video will now be available in the required folder.
Download a recording PCAP

It is not possible to download or export a recording directly from PCAP. To download a recording you have two options:

1. Publish the recording to a Learn.UQ(Blackboard) course and then download it using the link.
2. Copy the files from where they are stored on your computer.

Publish recording
Refer to p21.

Download recording from Learn.UQ(Blackboard)

- Click on the Download Lecture Video link.

- Click on the Download media file link.

- The recording is now available in your Downloads folder.
Copying from your computer

Note: You will need to know the time and date you completed your recording in order to find the required file (if you have a lot of recordings).

Finding the file path

To find where the files have been stored on your computer:

- Open the My Recordings screen.
- Click on the Tools menu and select Options.
- Note the file path in the Storage Location textbox.
- Browse to the required folder.
- Change your folder view to Details.
  - Click on the arrow next to the (View) icon.
- Open the folder that was created at the date and time of the recording.
- Copy the file.
Create a webcam recording (Kaltura)

**Note:** To use Kaltura on campus you must be logged into the UQ Internet Quota System. i.e. Enter any external website address into your browser, enter your user name and password and click continue.

Webcam recordings can be created in:

- The *My Media* area (recommended as in this area you can edit the video and assignment it to courses and your *Faculty Depositary*). (refer p2).
- Directly into a Content Area (*Learning Resources and Assessment*)
- Directly into a Visual Textbox Editor (i.e. Announcements, Items, Discussion Boards, Blogs, Journals, Wikis and Assignments)

**Create in a Content Area**

- Open a Content Area (*Learning Resources and Assessment*)
- Click on the (Tools) button.
- Select *Kaltura Media* from the drop down menu.

**OR Create in Visual Textbox Editor**

- Create an Announcement or Item or Discussion Board or Blog or Journal or Wikis or Assignment
- In the Visual Textbox Editor, click on the (mashup tool) icon.
- Select *Kaltura Media* from the drop down list.
OR Create in My Media

All staff and students have a My Media area in which is stored all videos they have uploaded, screen recordings and webcam recordings they have created.

- Open and login to [http://learn.uq.edu.au](http://learn.uq.edu.au)
- Click on the My Media link in the Tools module.
- Click on the (Add Media) button.
- Select upload media or record from webcam
- Select the Webcam tab.
- If the below dialog box is shown, click the (Allow) button.
- Select your webcam from the **Webcam** drop down list.
- Click on the **Record** (Record) button.

![Webcam interface](image)

- Click on the **Play** (Play) button to preview the video.
- Optionally, click on the **Record** (Record) button to redo the recording.
- Click on the **Next** (Next) button.
Recommended: It is recommended you complete the below settings for your video to ensure it can be accessed and edited by other staff.

Contribute to Faculty Repository

Adding your video to the Faculty Repository gives other staff access to your video.

- Click on the **Contribute to Faculty Repository** button.

- Enter your school title in the **Search field of study** textbox.
- Check the checkbox for your faculty.
- Click on the **Next** (Next) button.
• Select the required options in the **Suitable for** list (Hold down the Ctrl key on your keyboard to select multiple options).
• Enter information into the textboxes.
• Check the **I accept the Terms of Use** checkbox.
• Click on the **Contribute** (Contribute) button.

---

**Add to Course Gallery**

The course gallery is a searchable and sortable display of all media content assigned to a course.

• Click on the **Add to Course Gallery** (Add to Course Gallery) button.
• Select the required course.
Check the **Allow other to make clips from this video** checkbox, to give other staff access to edit the video (the orginal file is kept when clipping and a new edited video created).
Create a screen recording (Kaltura)

*Note:* To use Kaltura on campus you must be logged into the UQ Internet Quota System. i.e. Enter any external website address into your browser, enter your user name and password and click continue.

Screen recordings can be created in:

- The *My Media* area (recommended as in this area you can edit the video and assignment it to courses and your *Faculty Depository*). (refer p2).
- Directly into a Content Area (*Learning Resources and Assessment*)
- Directly into a Visual Textbox Editor (i.e. Announcements, Items, Discussion Boards, Blogs, Journals, Wikis and Assignments)

**Create in a Content Area**

- Open a Content Area (*Learning Resources and Assessment*)
- Click on the (Tools) button.
- Select *Kaltura Media* from the drop down menu.

**OR Create in Visual Textbox Editor**

- Create an Announcement or Item or Discussion Board or Blog or Journal or Wikis or Assignment
- In the Visual Textbox Editor, click on the (mashup tool) icon.
- Select *Kaltura Media* from the drop down list.
OR Create in My Media

All staff and students have a My Media area in which is stored all videos they have uploaded, screen recordings and webcam recordings they have created.

- Open and login to [http://learn.uq.edu.au](http://learn.uq.edu.au)
- Click on the My Media link in the Tools module.
- Click on the Add Media (Add Media) button.
- Select Kaltura Screen Recorder
Configure settings

- Click on the (microphone) button.
- Select your microphone from the drop down list.
- Click on the (volume) button.

- Click on the (Auto Adjust Volume) to automatically set the sound recording level.
- Click on the (Record) button and speak into your microphone to test the sound recording.
• Click on the (Play) button to stop and replay the recording.
• Click on the (OK) button.

Click on the (screen size) button.
Select the required screen size from the drop down list. (Fullscreen is recommended).
- Optionally if you wish to record with your webcam, click on the (webcam) button.
- Select the required webcam from the drop down list.

**Note:** You can resize and move the webcam recording window after you have finished to screen recording.

- Click on the (record) button.
Record video

- The recording will automatically start after the count down.
- Recording controls:
  - (pause) or hold down the Alt and P keys on your keyboard to pause the recording. Repeat to restart the recording.
  - (Restart) to delete the current recording and start another recording.
  - (Done) to stop and save the recording.
- Click on the

Webcam and metadata

- If you included webcam recording:
  - Click and drag on the (red triangle) icon to resize the recording window.
  - Click and drag on the webcam recording to reposition it.
- Enter a title for the video into the Title textbox.
- Optionally, enter a description of the video content in the Description textbox.
- Enter keywords in the Tags textbox

Tip: Enter keywords that will allow you to search for the video i.e. Course code, topic, sub-topic

- Click on the (Upload) button.
- Wait for the video to upload.
- Click on the (Close) button.
• The video will now be stored in your *My Media* area.

**Recommended:** It is recommended you complete the below settings for your video to ensure it can be accessed and edited by other staff.

**Contribute to Faculty Repository**

Adding your video to the Faculty Repository gives other staff access to your video.

• Click on the **Contribute to Faculty Repository** button.

• Enter your school title in the **Search field of study** textbox.
• Check the checkbox for your faculty.
• Click on the **Next** button.
Select the required options in the **Suitable for** list (Hold down the Ctrl key on your keyboard to select multiple options).

Enter information into the textboxes.

Check the **I accept the Terms of Use** checkbox.

Click on the **Contribute** button.
• Check the **Allow other to make clips from this video** checkbox, to give other staff access to edit the video (the original file is kept when clipping and a new edited video created).
Create a clip (Kaltura)

All staff and students have a *My Media* area in which is stored all videos they have uploaded, screen recordings and webcam recordings they have created. This area also includes a “clipping”, video editing tool.

**Note:** To use Kaltura on campus you must be logged into the UQ Internet Quota System. i.e. Enter any external website address into your browser, enter your user name and password and click continue.

**Note:** When you create a clip a new file is created and the original file is kept.

- Open and login to [http://learn.uq.edu.au](http://learn.uq.edu.au)
- Click on the *My Media* link in the *Tools* module.

Select a video

- Select the required video.
- Click on the *Create Clip* (Create Clip) tool.
- Play the video.
Metadata

- Optionally, edit the text in the **Title** textbox.
- Optionally, edit the text in the **Description** textbox.
Select In and Out points

- Drag the Play Head to where you want to start the clip.
- Click on the (Set In) button.
- Adjust the position using the Start Time box.
- Drag the Play Head to where you want to start the clip.
- Click on the (Set Out) button.
- Adjust the position using the Time Time box.
- Click on the Preview link to view your new clip.
- Click on the (Save) button.
Upload a recording into a Content Area (Kaltura)

Videos can be uploaded to Kaltura and directly inserted into a Content Area (Learning Resources or Assessment) using the Content Menu.

Videos can also be uploaded anywhere there is Visual Textbox Editor (Announcements, Items, Discussion Board, Blogs, Journals, Wikis and Assignments) (refer Insert a video into a Visual Textbox Editor guide).

Note: To use Kaltura on campus you must be logged into the UQ Internet Quota System. i.e. Enter any external website address into your browser, enter your user name and password and click continue..

Add video

- Open a Content Area (i.e. Learning Resources or Assessment).
- Click on the (Tools) button.
- Select Kaltura Media from the drop down menu.

Content Information

- Enter the title of the assignment in the Name textbox.
- Select a font colour for the title from the Colour picker.
- Enter instructions for the assignment in the Instructions text editor box.
Add Media

- Click on the (Add Media) button.

My Content

This option allows you to insert videos uploaded previously, webcam videos you have created and screen recordings (desktop recordings) you have created.

- Select the My Content tab.
- Optionally, enter a keyword to search for specific videos.
- Click on the (Search) button.
Video
Search all videos on My Content
Search
• Select the required video.

**Note:** Though it is possible to select multiple files, Kaltura will only insert one video. If need to upload another video, click on the **Add Media** (Add Media) button again and repeat the process.

• Optionally, click on the ![blue arrow](blue arrow) icon to preview the video.
• Click on the ![Next](Next) button.

• Optionally, edit the video title in the **Title** textbox.
• Optionally, edit the **Tags textbox**

**Tip:** Enter keywords that will allow you to search for the video i.e. Course code, topic, sub-topic

• Optionally, enter a description of the video in the **Description** textbox.
Availability

- Select the **Yes, Add to Course Gallery** radio button. The course gallery is a searchable and sortable display of all media content assigned to a course.
- Optionally, if you do not want students to view the video yet, select the **No, Permit Users to View this Content** radio button.
- Optionally, if you want to know how many times the video is viewed, select the **Track Number of Views** radio button.
- Optionally, set **Date and Time Restrictions**: i.e. The course content could be organised into weekly learning modules that are display progressive over the semester at the relevant time.
  - If required, select the **Display After** checkbox and enter the date using the (Date Selection Calendar) and enter the time using the (Time Selection Menu).
  - If required, select the **Display Until** checkbox and enter the date using the (Date Selection Calendar) and enter the time using the (Time Selection Menu).

![Diagram of options]

- Click the (Submit) button and video appears as below.

Delete or Edit the video

- Hover over the video.
- Click on the (arrow) to the right of video title. Select **Edit** from the drop down menu, if you need to change the video settings.
- Click on the (arrow) to the right of video title. Select **Delete** from the drop down menu, if you need to remove the video from the Content Area (Note it will not be delete from your My Media or the Course Gallery).
Upload a recording to Visual Textbox Editor (Kaltura)

Videos can be uploaded anywhere there is Visual Textbox Editor (Announcements, Items, Discussion Board, Blogs, Journals, Wikis and Assignments).

Videos can be uploaded to Kaltura and directly inserted into a Content Area (Learning Resources or Assessment) using the Content Menu. (refer Insert a video into a Content Area guide).

**Note:** To use Kaltura on campus you must be logged into the UQ Internet Quota System. i.e. Enter any external website address into your browser, enter your user name and password and click continue..

**Add video**

- Create an Announcement or Item or Discussion Board or Blog or Journal or Wikis or Assignment
- In the Visual Textbox Editor, click on the (mashup tool) icon.
- Select **Kaltura Media** from the drop down list.

- All the videos in your My Media area and the Faculty Depository will be displayed.
Upload current file

- Optionally, click on appropriate **Preview** (Preview) button to view a video.
- Click on the appropriate **Select** (Select) button upload a video.

Mashup Options

- Leave, the **Yes, Show media information** radio button selected.
- Leave, the **Yes, Show media description and tags** radio button selected.

**Tip:** Best practice is to include as much information as possible about the embedded video.

Click on the **Submit** (Submit) button.
- The video will be displayed in the Visual Text box editor.
Delete the video

- Click on the video.
- Click on the table link to select all information associated with the video,
- Press the Delete key on your keyboard.

Technical Resources

http://www.elearning.uq.edu.au/content/tools-a-z-guide
http://www.elearning.uq.edu.au/content/desktop-recording
http://www.elearning.uq.edu.au/content/video-and-audio-upload

A range of resources are available on our website, including self-help text based guides, self-help videos, teaching and learning quick-guides and information on known technical issues. Updates are also available on the progress of elearning projects such as the implementation of new tools and upgrades to current systems. This site is currently being redeveloped to improve

eLearning Blog

The focus of this blog is to provide information on what's new in eLearning. There will be regular posts on topics such as new eLearning initiatives, progress on eLearning projects, training news, technical issues, resources, tips and tricks and tutorials. The blog will include contributions from all ITS Teaching and Learning Support team members as well as guest posts from Faculty Educational Designers.
